Questions		Answers
Q1	How do our ENERGY based products work?	They attract and concentrate Prana (healing energies), which are directed through the apex down to the ground. Our energy bodies - auras, Chakras and meridian lines, need Prana to maintain your good health. Our products help to create an enhanced balance area of Prana to help bring your body into balance.
Q2	What does Prana do?	All our energy bodies need Prana, which is fed to all parts of our physical body to keep us healthy. If our energy bodies become damaged or blocked, our physical body will become unbalanced and we then become ill. Once you are back into balance, the healing process within your body can function correctly.
Q3	What is the difference between our 4 and 6-sided energy environments and energy mats? (The answers to this question are only a guide. Often the type that you are drawn towards is the right type for you).	A) Our 4 sided energy environments and energy mats tends to: <ul style="list-style-type: none"> ➤ work more on the physical level – physical related illnesses ➤ work through Chakras to auras ➤ allows more space for a treatment couch B) Our 6 sided energy environments and energy mats tends to: <ul style="list-style-type: none"> ➤ work more on the emotional level – emotional/stress related illnesses. ➤ work through auras to Chakras ➤ allows more room for healers to stand within (if a healer assists) All these products can be effective healing tools.
Q4	With our Energy Environments, what is the difference between using the Crystal point and Faceted glass sphere?	A) The Crystal Point tends to: <ul style="list-style-type: none"> ➤ works via the Chakras through to the auras. ➤ breaks up the incoming energy into a subtle stream of flowing energy. B) The Faceted Glass Sphere tends to: <ul style="list-style-type: none"> ➤ work via the auras through to the Chakras. ➤ breaks up the incoming energy into a soft 'snowflake' of energy.
Q5	With our Energy Environments, why should we use a Quartz Crystal or Faceted Glass Spheres?	It is not essential to use either; the structure will operate without these items, but is more effective using them. Both items manage and smooth out the energies within the structures.
Q6	How do the Energy Mats work?	They create a energy environment of Pranic energy around you that concentrates healing energies. Within a short time they will fill your room with soft relaxing energies. The balanced design creates balanced energies, which can help to balance your own energies.
Q7	Will our products heal me?	Although we have had good results, we cannot give any guarantees. What works for one person may not work for another.
Q8	How often do you need to use the products to obtain maximum benefit?	This will vary from one person to another depending on the nature of the illness and the person's own body to activate the healing process. It is a question of using your own judgment, results and gut feelings.
Q9	Why pay for a large Energy Environments rather than the smaller, low cost Energy Mats?	In general, the larger Energy Environments have stronger energies than the Energy Mats – hence the difference in price. Our hanging pyramid tends to bridge the gap between these products.
Q10	How is the price of our products based?	We try and sell our products at affordable prices, so that we can help as many people as possible. It takes a long time and a lot of resources for us to develop new products, the cost of which is included in our prices.
